

STRAIGHT DROP

PROTECTA Straight Drop is suitable for use as an external screen in a low wind area.

Our Straight Drop system is perfect for providing extra privacy & sun protection where required. Great for areas like patios, pergolas and balconies.

Operation available as gearbox with 2 different gear ratios available or motorised for automation.

Fixing straps have to be removed before any fabric retraction is initiated.

FEATURES & BENEFITS

- Provides great protection from sunlight and glare
- Gearbox and motorised options only
- Perfect for entertaining areas
- Secure using Web & Buckles providing great control in gentle breezes

PROTECTS FROM

STANDARD COLOUR RANGE

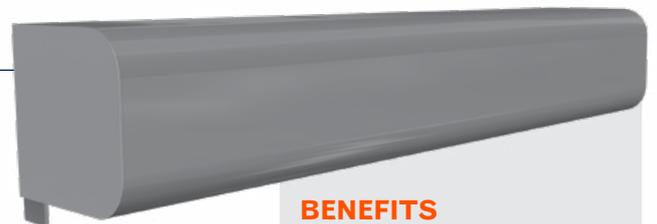

*Available in 40 custom colours on request.

SEAMLESS HOOD

CLEAN LOOKING CURVES WITH NO VISIBLE JOINING LINES

DURABLE CAST ALUMINIUM

Can be face fit or reveal fit and allow for the removal of the roller tube without removing the system from the wall. The simplicity of the headbox and hooding allows easy access to operational spring system.

BENEFITS

- Modern Design
- Easy Clip-In Installation
- Lightweight
- Cast Aluminium
